

Stanford Community Advisory Board for Clinical Research (CAB)

Rey Naik, Nicole Ventre, Kenneth Mahaffey
Stanford University School of Medicine

Stanford
MEDICINE

Center for
Clinical Research

BACKGROUND & MISSION

CAB was launched in 2016 by the **Stanford Center for Clinical Research**, in partnership with the Stanford Office of Community Engagement.

Our mission is to build and foster partnerships between researchers and the community to ensure that clinical research is participant focused, successful and meaningful.

Primary Aims

- (1) Enable community members to participate in the research planning process, including assistance with dissemination of research findings to the community; and
- (2) Provide feedback to researchers on recruitment strategies, including reaching specific populations. Researchers receive direct feedback and guidance at CAB meetings and are provided a summary of the meeting discussion.

BENEFITS & MARKERS OF SUCCESS

Community Members

- Learn about Stanford's research
- Engage and participate in the research process
- Provide input, feedback and idea generation
- Voice priorities and concerns

Investigators

- Develop processes that are respectful and acceptable
- Optimize recruitment methods and incentives
- Anticipate and reduce barriers to study participation
- Receive input on study design and material
- Identify channels, partners, and best practices for research dissemination

Markers of Success

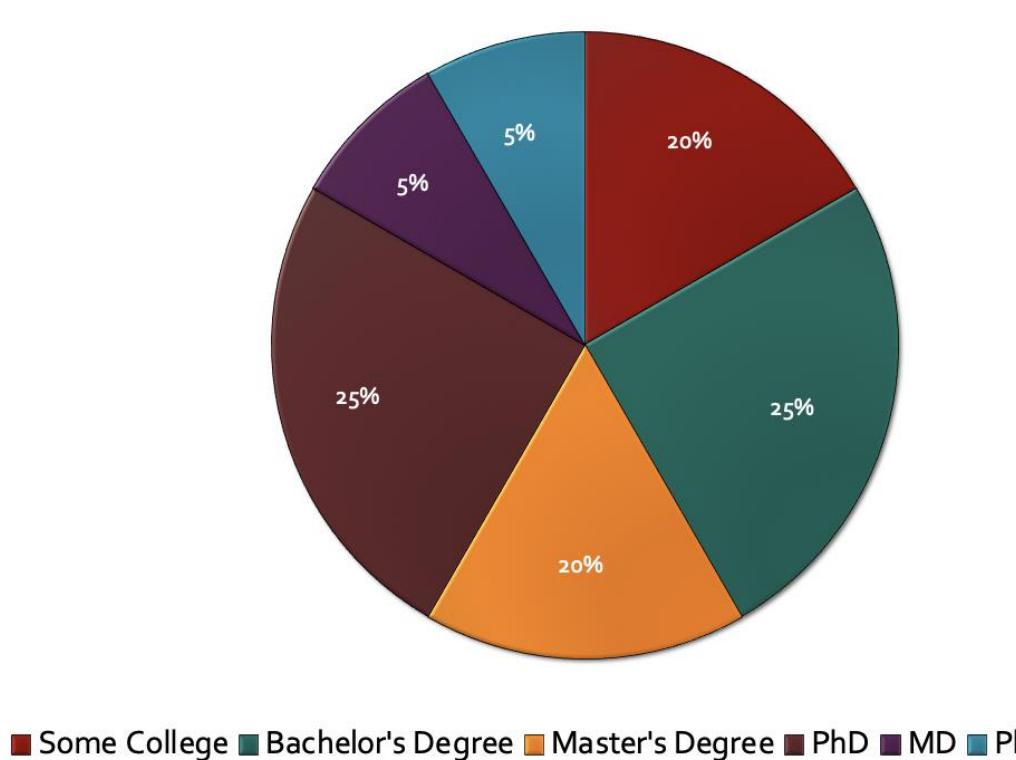

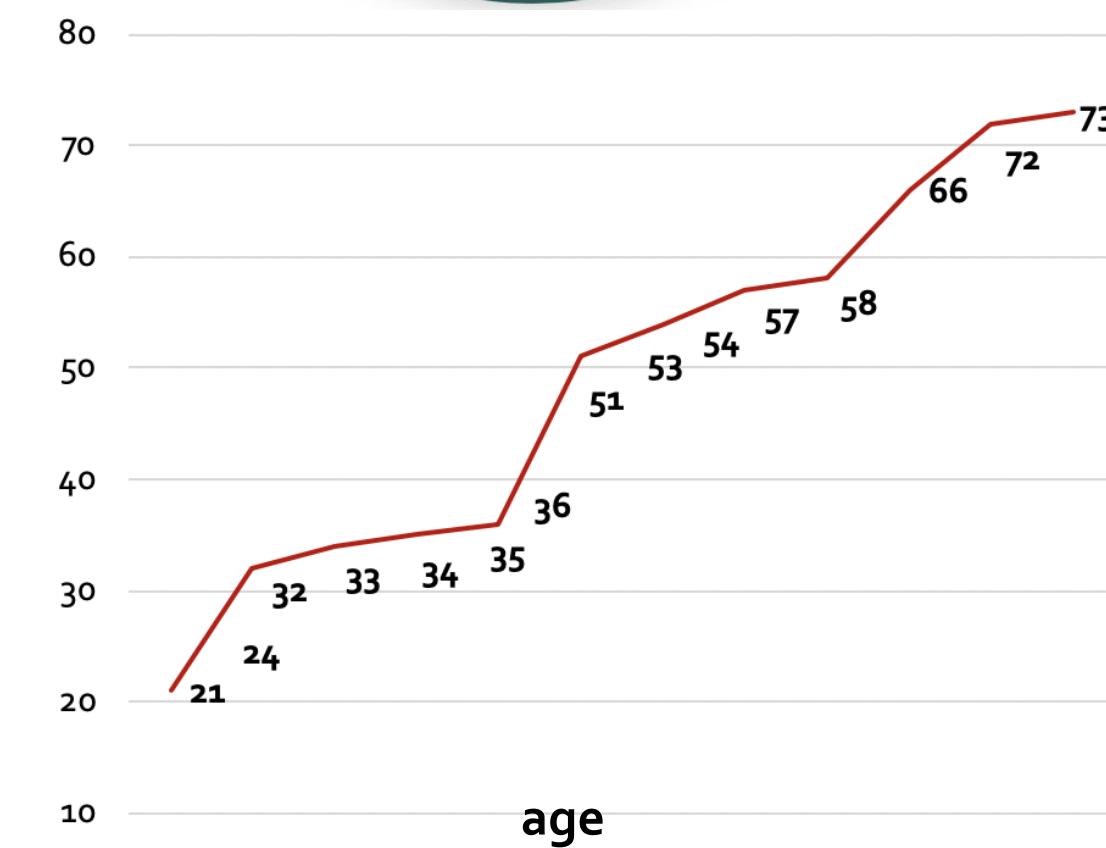

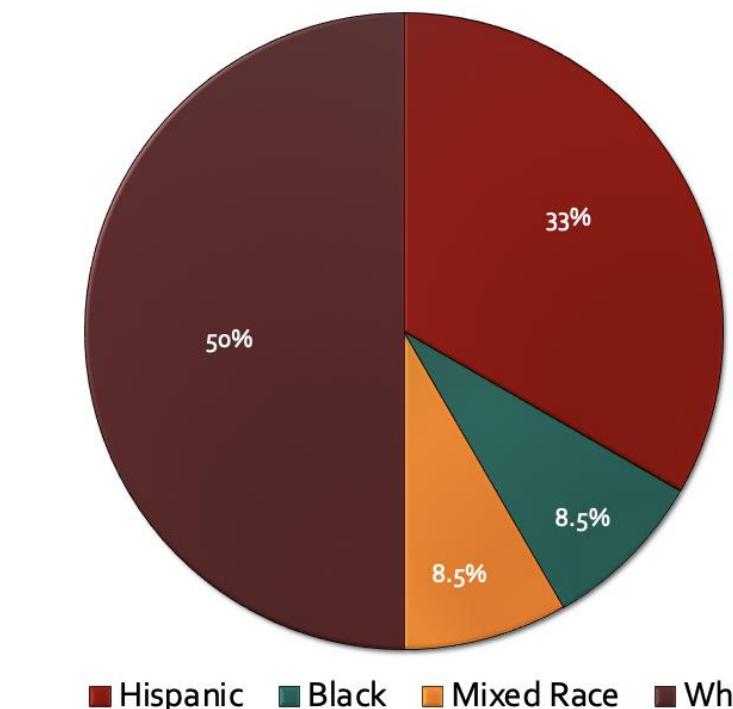

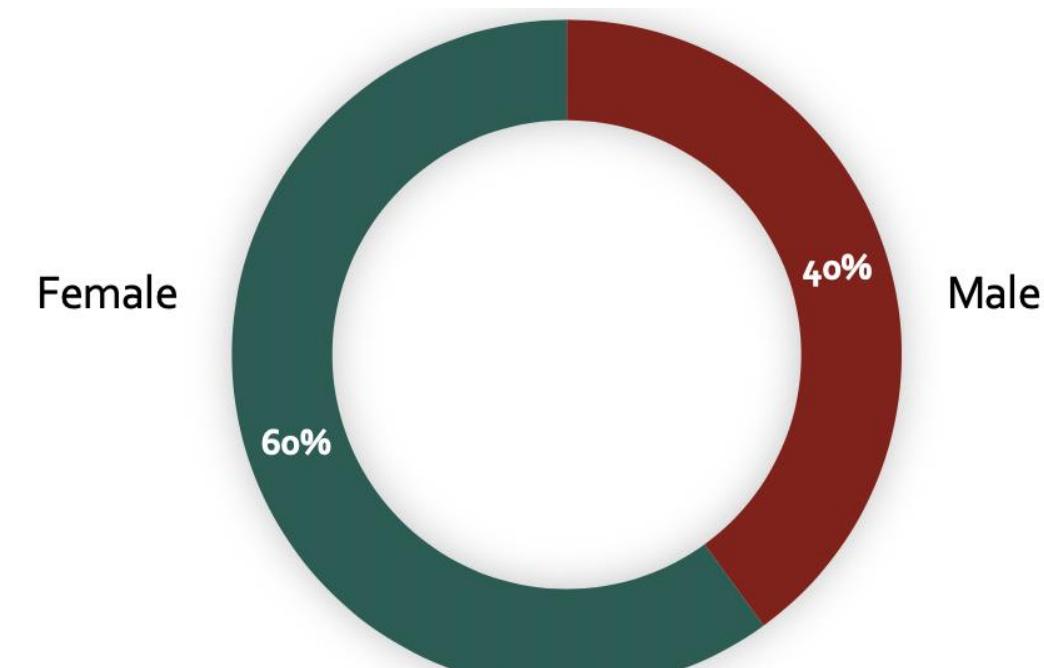

- Engagement of researchers, as measured by breadth of presentation topics
- Retention of CAB Members and satisfaction with the process and their role

BOARD MEMBER DEMOGRAPHICS

About the Board

The CAB consists of a diverse group of community members who live, work, seek health care, and/or participate in businesses, organizations, or education in areas surrounding Stanford University.

ACKNOWLEDGMENTS

 **Stanford Spectrum**
The Stanford Center for Clinical and Translational Research and Education

 **Stanford** Office of Community Engagement,
Center for Population Health Sciences

 **Stanford** Child Health Research Institute

 **Stanford** Anesthesiology, Perioperative and
Pain Medicine

 **Stanford** Department of Psychiatry and Behavioral Sciences

OPERATIONS, SCOPE & EVALUATION

Operations

CAB meets 6x annually, for two hours per session on a weekday evening.

Eligibility to Present

All research teams from across the School of Medicine.

Scope

CAB provides community perspective, feedback, and idea generation.

Protocols Reviewed

All protocols are reviewed, with the exception of cancer.

Evaluations

We administer board member satisfaction surveys and in-depth evaluations, as well as short and long-range investigator surveys.

2019 Schedule

DATE	INVESTIGATOR	TOPIC
11/13/19	Anisha Patel, MD	Healthy Beverages Intervention
09/11/19	Mike Baiocchi, PhD	Sexual Violence Intervention
07/10/19	Jennifer Robinson, PhD	Nutrition Studies Group
05/08/19	Ken Mahaffey, MD	Project Baseline
03/13/19	Sharon Cardenas	Healthy Brain Aging Study
01/09/19	Lisa Henriksen, PhD	Big City Tobacco Control Study

LEADERSHIP

Nicole Ventre, MS
Operations Chair
Stanford Center for Clinical Research

Rey Naik
Operations Manager
Stanford Center for Clinical Research

Jonathan Shaw, MD
Community Chair
Ravenswood Clinic and Stanford Division of General Medical Disciplines

Judith Prochaska, PhD
Faculty Chair
Stanford Prevention Research Center
